PRICE THREE CENTS

IMMIGRANTS FLOCK IN AS DOORS OPEN

Over 1,000 Completely Satisfy Requirements; July Quotas for Greece and Others Will Be Reached Today

15,582 EXAMINED

Hasty Inspection on Board Ship Followed by Right One on Land; Literacy Test, Reading 40 Words

New York, July 1.—Ellis Island, facing its greatest onslaught of immigrants since the enactment of the three per cent law by congress, was a place of happiness today as would-be citizens with few exceptions were quickly passed for entry into the United States.

Medical and immigration inspectors working until midnight scanned the streams of humanity taken to the island from four of 11 ocean liners anchored at Quarantine. More than 1,000 of the 2,074 aliens arriving at the island, it was estimated, were permitted to go to New York.

The July quotas for various nationalities, which had haunted the aliens as they sped across the ocean to the land of promise, and waited aboard ships to dash for Quarantine on the stroke of midnight, were not reached during the night at Ellis Island. Quotas for Greece and a number of smaller nationalities were expected, however, to be filled tomorrow.

Examine 15,582 at Island.

The total number of persons who underwent examination today either on ship board or at Ellis Island was 13,382. Of these 5,711 were aliens who must be examined at Ellis Island and 4,000 were members of the crews of the various vessels. The others were cabin passengers.

Commissioner of Immigration Henry S. Curran, who assumed office today, said that 2,242 immigrants would be taken to Ellis Island tomorrow from the steamships Stockholm, Swedish, from Gothenburg; President Adams, American, from London; King Alexander, British, from Piraeus and the France, from Havre.

The race to port, across the imaginary line denoting entry into American waters, on the stroke of midnight, when the fiscal year of the new quota system was made by 44 aliens, carrying approximately 10,000 immigrants from 22 nations.

Inspections Very Rapid.

The inspection at Ellis Island was rapid. The aliens were given physical examinations, supplementing the quick test made aboard ships by public health service physicians and each was made to show that he had \$50; the literacy test, reading 40 words in any language, completed the examination.

Thousands of friends besieged Battery Park seawall, where the ferry docked after bringing its human freight from Ellis Island. There were tearful but happy reunions between the immigrants and those who already had homes in America. Trains for all parts of the United States carried aliens on their way to their new homes.

Fourteen stowaways were found aboard the Giulio Cesare. With stowaways on other liners, they were herded at Ellis Island for speedy deportation. There were four such unbidden guests on the President Wilson.

Most of the beer aboard the President Wilson was given away to passengers as the ship neared American waters. The rest was thrown overboard.

COUNTY TREASURERS RECEIVE INCOME COLLECTION SHARES

Albany, July 1.—County treasurers tomorrow will receive a total of \$17,399,000 representing shares in the first distribution of the 1922 personal income collection. Checks this year are 12 per cent greater than a year ago, according to the state tax commission, but the increase is not equally distributed since counties have not ratably increased assessed valuation on real property on which the distribution is based.

New York city will receive \$11,527,529, where nearly \$600,000,000 has been added to the assessment roll, since last year the total assessed valuation of real property in the state has increased \$62,311,822.

ATTORNEY GENERAL SUBTURB

Gloversville, July 1.—Crawford O. German, 42, a Johnstown attorney and graduate of Albany Law school, was found hanging in a tree in an orchard near his home this morning. A .22 calibre bullet wound had been inflicted in the right temple. He had been suffering from a nervous disorder for several months but no motive for his suicide has yet been learned.

THOUSANDS SEEK CYLCA WOMAN

Syracuse, July 1.—State troops of 600 men, seeking a solution of the mystery of Frank A. Lacy, 25, of Syracuse, a New York Central employee, after he had gone for a canoe ride on Fourth Lake Friday morning, are searching for a Cylca woman at whose camp near the Adirondack resort the Syracuse man was a guest.

U.S. HAS SURPLUS BUREAUS

Washington, July 1.—Complete figures covering the government's official operations for the fiscal year ending yesterday, made public tonight, show receipts for the U. S. Post Office of \$1,497,121,128 and expenditures of \$1,497,473,128, resulting in a surplus of \$300,342,000 dollars.

TRAIN KILLS MAN AFTER HORSE RALES ON CROSSING

Elmira, July 1.—Edward Seaman of Cooperstown was instantly killed, his wife badly injured and his horse killed, by a Lackawanna railroad express train today when the animal balked on a crossing.

PLANS SAFETY FIRST CAMPAIGN

Showing World Educates Workers and Prevent Injury; 1,300 Deaths Each Year

New York, July 1.—More than \$123,000,000 has been paid to injured workmen and to dependents of workers killed in industrial accidents in the nine years the workmen's compensation law has been in operation in New York state. Industrial Commissioner Bernard L. Shienthal reported today. The money was distributed to more than 400,000 claimants.

Industrial accidents in the state during the nine year period the report added, numbered more than 2,500,000, an average of about 300,000 a year. The number of deaths reported was 12,480, an average of 1,300 a year.

Commissioner Shienthal announced plans for an educational campaign against industrial accidents were being developed under his direction. Features of the campaign will be a museum to be installed by the American Museum of Safety in this city, traveling safety exhibits and the organization of safety committees in all industrial establishments.

GENERAL FOURARD ARRIVES IN U. S.

One-Armed Soldier of France Is Guest of Rainbow Division, Once Under Him

New York, July 1.—Welcomed by cheering thousands and with the strains of martial music, General Henri Joseph Fourard, one armed soldier of France, arrived on the liner Paris today to be the guest of the Rainbow division for six weeks.

A welcoming committee composed of military representatives boarded the liner at Quarantine and accompanied the general, who is on his first visit to America, to the pier. He was escorted to the Pennsylvania station, where he left for Southampton, to be the guest of Mr. and Mrs. Charles H. Sabin, during his stay in New York.

Emphasizing the friendship between France and America through the soldiers of both countries, General Fourard paid tribute to the American soldiers and particularly praised the Rainbow division, the first American unit to come under his command during the World war.

General Fourard will attend the meeting of the 42nd division association at Indianapolis July 13-15.

BISHOP DEPLORES SIGNING OF CUVILLIER MEASURE

(By the Associated Press)

Winona Lake, Ind., July 1.—Repeal of the New York state prohibition enforcement act was deplored by Bishop William F. Anderson of Cincinnati in his keynote sermon opening the eight day conference here on international Christian citizenship.

More than a thousand delegates from the United States and a score from foreign countries attended.

The bishop said he regarded the action as an indication of the need of the age for a higher standard of morality in politics.

SERIOUS SKIDDING ACCIDENT.

Elmira, July 1.—George Conklin of Hornell, his son, Robert, 11, and George Labour, 15, were so badly hurt when Conklin's car swerved from the road and struck a tree, that doctors say it is doubtful if either lad can survive. Conklin, who is an Erie resident, living in Herkimer in January, 1922, was indicted April 14 by a New York county grand jury for forgery in the third degree and making a false financial statement, it was learned today. Joseph, now in Europe, it was said.

MORE LIQUOR ARRIVES

New York, July 1.—Handicapped by the hordes of immigrants aboard the 11 ocean liners which reached Quarantine, officials of the treasury department were working overtime tonight, checking up the liquor supplies aboard the ships. Three vessels were known to have quantities of liquors under seal as "medicinal supplies." They were the liner Paris, which brought the largest supply, only part of which was under French seal, the Stockholm and the Aquitania.

Government officials, it was said, broke the seals aboard the three ships and will formally seize all liquor exceeding the prescribed medicinal supply when the ship's manifests are presented.

SHUTTING DOWN IN MAINE

Waterville, July 1.—Customs agents covering the government's official operations for the fiscal year ending yesterday, made public tonight, show receipts for the U. S. Post Office of \$1,497,121,128 and expenditures of \$1,497,473,128, resulting in a surplus of \$300,342,000 dollars.

BOYDEN QUIT REPARATIONS OBSERVATION

Unofficial Representative of United States' Government at Paris Aims to Resume Practice at Bar.

LOGAN APPOINTED

Assistant Will Assume Duties as Observer; Boyden Member of Various Missions on Finance and Economics

(By the Associated Press)

Paris, July 1.—Roland W. Boyden has resigned as unofficial representative of the United States on the reparations committee, effective August 1. "I have been here long enough," he said.

WILL RESUME PRIVATE PRACTICE.

Washington, July 1.—The resignation of Roland W. Boyden as American observer with the reparations commission, which was announced in Paris today, is due to his desire to resume his professional practice at the bar, the state department said in a formal statement. His duties, it was added, will be taken over by his assistant, Colonel James A. Logan, Jr.

"Mr. Roland W. Boyden, American observer with the reparations commission," the department announcement said, "being desirous of resuming his professional practice at the bar, the state department said in a formal statement. His duties, it was added, will be taken over by his assistant, Colonel James A. Logan, Jr."

Harding Resumes Appointment.

Mr. Boyden was appointed from Beverly, Mass., where he has had considerable legal practice as well as banking and other connections. He is in his 60th year and was graduated from Harvard College in 1885 and from the Harvard Law School in 1888.

Appointed originally to the commission with the expectation that he would become official member upon ratification of the peace treaty, Mr. Boyden's status, upon refusal of the Senate to ratify the treaty, was made

an advisory capacity with the commission, a status which was renewed by the Harding administration soon after its induction into office.

In addition to his service with the commission he has acted from time to time on financial missions and with other economic committees, although his duties related primarily to questions before the reparations commission with special reference to the cost of the American army of occupation, shipping matters, Austrian and other relief subjects and the effect of reparations payments on foreign exchange.

K. K. NOT RELIEVED FROM WALKER BILL PROVISIONS

New York, July 1.—The Ku Klux Klan had not relieved itself from the possibility of prosecution for violation of the Walker law by its recent application for incorporation as a benevolent order, Secretary of State James A. Hamilton said today. Benevolent orders were exempted from the Walker law which required secret fraternal orders to file with the secretary of state their roster of members, bylaws and other details.

The Klan, Secretary Hamilton said, was liable for prosecution for its failure to comply with the Walker law which became effective 10 days before application for incorporation was filed.

PINCHOT DEPLORES DRY LAW VIOLATION

"Failure to Enforce Volstead Act Blot on Good Name of United States," He Says

Troy, July 1.—Governor Gifford Pinchot of Pennsylvania, in a message tonight to the New York State convention of Christian Endeavor societies, in session here, said he regarded "the present flagrant failure to enforce the Volstead law a blot on the good name of any state in the United States."

"If allowed to continue," Governor Pinchot's statement added, "it will amount to a serious charge against the fitness of our people for genuine self-government."

Lieutenant Governor George R. Lunn, principal speaker at the session tonight in Music hall, assailed the 12-hour working day in the steel industry as "morally indefensible and economically untrue." He said that the policies of the steel employers were "sending their men back to their master before their time."

The convention will adjourn tomorrow night.

INDICT JOSEPH FOR FORGERY

New York, July 1.—Hugo S. Joseph, a member of the Wall street import and exporting firm of Childs and Joseph which failed for \$100,000 in January, 1922, was indicted April 14 by a New York county grand jury for forgery in the third degree and making a false financial statement, it was learned today. Joseph, now in Europe, it was said.

The accident occurred at Camp Minnehaha, where the young man was with his fiance, Miss Tallman, and a party of friends were spending a few days' vacation.

SEVERELY WOUNDS SELF.

Old Forge, July 1.—Leon Edger of Oneida Castle, was severely wounded this morning when a .32 caliber revolver, which he was cleaning, discharged, sending the bullet crashing into his body above the heart, coming out under the left arm lodging in the bone of the arm near the arm pit.

FRONTIERS CLOSED BY FRENCH AFTER BOMB EXPLOSION

All traffic in Duisburg ceases at dusk; Stores Also Closed; Pedestrians Must Be Off Streets at 10

(By the Associated Press)

Emerson, July 1.—The penalties imposed because of the Duisburg bomb explosion which killed 16 Belgian soldiers and injured 42 other persons, were announced this morning at French headquarters. They affect all the Ruhr and Rhineland and include the closing of the frontiers as ordered by the Rhineland commission. Interurban tramway service in the Ruhr is placed back on a normal basis, as prior to the occupation.

German civilians to the number of 223 have been arrested at Duisburg by the Belgian authorities, most of them for violations of new orders and a state of siege was declared after the explosion. The majority of them were taken at night by Belgian patrols for being out after the 10 o'clock curfew.

The cities and towns surrounding Duisburg, including Münster and Hamm, have been notified by the Belgians of a state of siege and civilians are warned against entering Duisburg after dark, when all traffic is prohibited and everything is closed tight.

VILLAGES MUST PAY INDEMNITIES.

It is announced that all villages and the Reichs government will have to pay for damage done to railroads and other property in case of future attempts and that the Duisburg community and the Reichs are held responsible for indemnities which will be exacted in behalf of the families of the Belgian victims of yesterday's outrage.

A German was killed last night at Herten, near Recklinghausen for disregarding the curfew order.

It was announced today by the French that Karl Radek, official Bolshevik publicity agent, has arrived in the Ruhr from Moscow to confer with Communists at Bochum and other Soviet centers. The German authorities say they have no information that Radek has arrived in the Ruhr and add that if he has come it is quite likely he got in without Berlin's permission.

The German newspapers report that the Communists at Dresden, Leipzig and other cities have received orders from Moscow to increase their activities and interest population in the Soviet revolutionary plan to organize clubs of 100 each along military lines.

French troops have seized four coal

BROOKLYN BEATS CHAMPS.
But Three Hits Only, but See Them to Excellent Advantage.

Brooklyn, July 1.—Brooklyn made only three hits off McQuillan today, but they included a double by Wheat and a home run by Fournier batted in the first inning and New York was beaten, 2 to 1. It was Fournier's seventh home run in 10 games and his ninth of the season. Baerker kept the eight hits of the Giants well scattered, a muffed fly by Griffith giving them their military run. French returned to the game after a long absence and fielded brilliantly.

REDS EVEN SERIES.
Two Runs in Seventh Inning Rally Given Them 3 to 2 Victory.

Cincinnati, July 1.—The Reds evened up the four game series with the Pirates before 19,000 fans today by pulling off a rally in the seventh inning, after trailing up to that time. Donohue was taken out in the seventh for a pinch hitter and Luque retired the six batters which faced him in the last two rounds, in order. Caveney, who has been absent for 10 days with a strained shoulder, returned to the Red lineup and his hitting was the leading feature of the game.

What are some of the commonest faults in golf, which an average golfer can easily correct if they are merely pointed out to him?

Answered by
TOM KERRIGAN

Professional, Skaneatele Country Club, Mount Vernon, N. Y. A consistent place winner in big tournaments. In British Open, 1921, he finished third, two points behind Hutchison and Woherder, tied for first.

Here are the common faults which any player can correct for himself with intelligent practice: Swaying the body, hurrying the stroke, making the back swing with a jerk, getting the body into the stroke before the club head meets the ball, using clubs not suited to the individual's style of play, trying to outdrive the other fellow, and using too long a swing for iron shots instead of using the wrists and forearms.

Mobile Hangar Could House Large Office Building

At Scott Field, Ill., the Army Air Corps has erected, at a cost of more than

an electrical show held at a western university not long ago, one of the students' amazement the crowd with a display rivaling the mythical tents of Jove, who was believed by the ancients to be the wielder of the thunderbolt. Seated in a chair separated from a table by seven-jeweled inlays, the youth grasped a lightning rod in one hand and in the other a wad with which he made contact with a ball from which the lightning effect was emitted. The impunity with which he handled the 1,000,000 volts is explained by the low amperage value of the current passing through his body and the insulators used.

World's Largest Cable for Atlantic Ocean

Completion of the laying of a new cable in the Atlantic Ocean, between New York and London, is expected by August 1 next, according to a recent announcement.

It will lay the latest over laid in the Atlantic, or anywhere else in the world, and will have a capacity twice that of any other cable now in service between the United States and Europe. Engineers charged with the design of the new cable estimate that it will permit a sending speed of approximately 600 letters per minute in both directions at the same time, or a total of 1,200 letters per minute, making it the fastest cable in the world.

The conductor requires an average of 1,100 pounds of copper per mile, or an average of about 700 pounds of copper per mile for the longest run in service.

Concentration Quite Important to Golfer

For a game of its size golf requires an unceasing amount of concentration, and that's one thing they do not sell in the golf-supply shop.

The golfer may stand on the tee intent to concentrate at the little white ball in front of him, and as he gazes on it the mental picture he probably has is Babe Ruth slamming out a home run. One of the most difficult things about the game, it would seem, is to think about what you are doing.

Attachment on Spade Saves Shoes

The illustration shows a simple attachment for a spade, to save the shoes while digging. The attachment consists of a short length of 3/4 or 5/8-in. pipe, about 6 in. long, with a hacksaw slot cut through it lengthwise as shown, to permit it to be pushed onto the spade. The slot should, of course, be of such a width that the spade will be gripped firmly. The use of this attachment not only saves the shoe, but it is not so tiring on the feet.

SCHENEVUS AUTO RUN

Annual Auto of Schenevus High School Alumni Association to Otsego Lake Held Thursday.

Schenevus, July 1.—The annual automobile run of the Schenevus High School Alumni Association to Three Mile Point, Otsego lake, Thursday afternoon, was a pronounced success. Despite the threatening weather 45 members with the graduating class as guests made the trip. Dancing and music filled the afternoon hours, after which the party motored to the Elks club at Oneonta for special dinner prepared for them. An excellent menu prepared by the chef with witty, impromptu addresses here and there, filled the dinner period. Afterward, the party attended the theatre, returning at a late hour to Schenevus, thus concluding one of the most delightful outings in the history of the organization.

Alumni Banquet Thursday.

Thursday night the 22nd annual banquet was held in the Community house. The officers elected for the coming year are: Reniff Merriman, president; Doris Young, vice-president; Mrs. Yale Lyon, secretary; and Miss Minerva Hayes, treasurer. After the banquet a very interesting program was carried out. Delmar Simon was the toastsmaster. Doris Young, president of the class of '22, gave the welcome to the class of '22. James Stewart gave the response. Mrs. Delmar Simon gave a vocal solo. Miss Cecil Stearns a piano solo; and Miss Frances Best and Mrs. Stoneham a duet. Henry Buckley gave a very interesting description of his travels in Honolulu and other Hawaiian Islands. The most interesting feature on the program was a reading by Miss Julia Vail. The selection given was the "Bad Scene," taken from Booth Tarkington's "Gentle Julia." All of the program was very much enjoyed. The rest of the evening was devoted to dancing, cards and a social hour.

UNADILLA COMMENCEMENT.

Eighth Grade, Training Class and High School Graduates Held.

Unadilla, July 1.—The eighth grade commencement was held last Friday night, Mary Zeh gave the salutatory and Van McKay the valedictory address. Both of these also received diplomas with honors.

The program given by the grades was very interesting. Promotion certificates were given to all of the grade pupils. The grade prizes were also awarded. Mary Zeh received the prize for having the highest Regents' average in preliminary subjects.

The Training class held their commencement exercises Monday night. The first part of the program was in the form of a Class day. Gladys Hartz gave the president's address. Then the Training Class Gazette, edited by Ada Butler and to which all of the class had contributed, was also read. Alice Strong, the gitsorian, presented a gift to each member in the class with appropriate remarks. Ruth Bouck gave the class poem. The prophecy was given as a picture album. Grace Lamb as "Aunt Hetty" showed the picture where each girl was posing, and foretold the future. The Training class prize was also given during this part of the program. It was won by Martha Boyd, whose average was 90 1/2. Four others had an average of over 89. They were Gladys Hartz, Esther Kehr, Viola Frear and Olga Maltz. The other graduates of the class were: Ada Butler, Pauline Dodge, Corinne Harris, Evatt, Atiken, Ruth Bouck, Alice Strong, Grace Lamb, Eleanor Fisk and Mabel Church. The second part of the program was a Dutch operetta called, "The Windmills of Holland." All of the characters were dressed in Dutch costume. Three members from the High school were in the cast: Blanche Carey, Elizabeth Jenkins and Dora Engels. The exercises were very much enjoyed by all who attended.

Second eight—Stewart defeated Hotchkiss 6 and 5; Tyrrell defeated Ferrin 3 and 2.

Third eight—Taylor defeated Osbrander one up; Kaufman defeated Barber 3 and 1.

Fourth—Tibbott defeated Callahan 4 and 1; Williams 4 and 1; Williams 4 and 1.

In the finals of the Advertising tournament, played on the Cooperstown Links, Charles G. Wright was defeated by Ensign Conklin, by 4 and 3. Wright brought "Ensign Conklin in three down on the first eighteen holes. In the afternoon round Conklin took four of the first five holes. This made him one up going to the sixth. Steady golf by both players continued to the tenth hole, when Wright began to slide and Conklin finally won. Conklin's medal score for the second round was 71, tying the professional record held by M. Hayner of Cooperstown.

The afternoon was spent in two-ball mixed four-somes. Results were as follows: winners, Mr. and Mrs. Prosky, 111,35,76; Mr. and Mrs. G. Stearns, 109,33,78.

W. S. Bird was unanimously elected president for the coming year.

ISN'T A BAD PLAN.

The men and women who were boys and girls of half a century, more or less, ago, recall with delight the good days and nights when everybody gathered at the school house, which far more than it now is, was a community center, and for a principal diversion either spelled each other down, or engaged, or perhaps it would be better to say, indulged in a debating match. Sunday were the subjects for discussion, whether water is more destructive than fire, whether women should be allowed to vote, should United States senators be elected by popular vote, should Presidents be elected the same way? whether gold or iron is the more valuable metal, is city or country life more preferable, and so on interminably, or until the advent of spring drew attention away from discussion and toward picnics.

Recently a match of a different sort was held in Erie county, which is worth considering in any rural section of the state.

The boys of the Agricultural Junior Extension Club of the North Collins school put forth a debating team and a challenge in this form. "Received, that North Collins is a better agricultural community than Hamburg community." Naturally the boys of the Hamburg club came back with a team of debators of their own and the stage was set for a match of wits that brought as big a crowd as did the spelling "match" of old.

Although hard pushed by the defenders of Hamburg's agricultural good name, the North Collins team managed to sustain its statement in the eyes of the judges. Great was the glee of the North Collins boys and needless to say their parents were equally well pleased.

Although disappointed, the Hamburg boys and their folks relied with good grace—not in defeat but to prepare for the next time.

Why should not the young people and old in any part of the state seriously consider whether their own community is better than an adjoining one, and not about before an impartial judge to prove why and in what way it is better? It would not only be an interesting discussion, but if undertaken in the right spirit, would be one in which the real victory would go to the defeated township. It naturally brings self-complacency, but having its shortcomings pointed out, it is to be hoped not too triumphantly. It would well put at once to make East Indians the definite superior of Slovensville in all particulars. The latter would not consent easily to be surpassed, and so would arise a friendly competition which would make for better schools, better roads, better homes and better farms.

Such competition, by the way, need not be confined to rural communities. There is no reason why one village, if not by means of debate, should not at least compare itself with others, see for itself where the other has better standing and certainly it will in some ways, and then go to work to better local conditions. There might be worse methods of employment for the family library than a drive to a town ten miles or more away, not for criticism but for the purpose of seeing where Hamburg might be benefited.

C-T-R COMPANY AFFAIRS.

Working Debt Cleared and \$1,00,000 in Cash Left by Recent Stock Issue.

The following statement from the Wall Street Journal will be of interest to the many Oneontians who own stock or bonds of the Computing-Tabulating-Recording company:

"At a meeting of the directors of the Computing-Tabulating-Recording company, President Thomas J. Watson reported that recent issue of 10,000 shares of stock had all been sold and paid for by those who were already stockholders and employees of the company.

"Money thus secured enabled the company to clear its entire floating debt, except ordinary current bills for material supplies, etc., and will leave the company with a cash balance of over \$1,000,000.

"The net earnings for the first five months, after providing for federal taxes, are sufficient to take care of the full year's dividend of 16 a share on the entire issue of 100,000 shares of capital stock outstanding.

"These earnings do not include \$500,000 judgment in the recent action of lawsuit for the infringement of patents."

Paid Culling in Delaware.

Arrangements have been made to have a paid culler who is an expert poultryman to be in Delaware county the week of August 12. This poultry expert will do the actual culling of flocks of hens that are being carried over another year. This service is different from the regular culling demonstrations which are scheduled in about 15 communities along with the two county poultry tour for the week of July 24-25 and August 6-10. Poultrymen wishing the paid culling service are asked to notify the Farm Bureau office at once. With the exception for this service, a fee of 42 is charged for the handling and sorting out of birds up to 100 in the flock. Poultrymen charges will be made for flocks having more than 100 birds. Poultrymen having these flocks culled, in addition to helping pay for the services of the poultry expert, railroad, traps, etc., are asked to help in the expense of transporting the culler from one farm to another.

Woolen at West Oneonta.

The Woolen Bureau will meet Tuesdays afternoon at 3 o'clock at the home of Mrs. Charles Miller, Ladies' Room, 21 River street. Ladies are invited to wear up during their visit.

SPECIAL SUPREME COURT

Proceedings Before Justice A. L. Kellogg at Chambers Were Suspended.
Lawrence Grange to Purchase Hall.

At a special term of the supreme court held in this city on Saturday, Justice A. L. Kellogg granted the Lawrence grange, (1921), permission to purchase real estate in the village of Lawrence to make, execute and deliver to the seller a bond and mortgage to secure payment of part of the purchase price. W. C. McRorie of Millford appeared for the petitioner.

It is understood that the grange sought the permission that they might purchase the property of Mrs. Banner in the village for a grange hall.

Another action was that of Mack E. Spraker versus Herbert W. Spraker, an order to show cause why defendant should not be punished for contempt of court for failure to pay \$30 alimony due and owing to the plaintiff on the 15th day of March, 1922. Hearing was adjourned by stipulation to the first Saturday in September. Almond Cramer of Cherry Valley appeared for the plaintiff, while Claude V. Smith appeared for the defendant.

In the action of partition of Head Talbot versus Ade E. Bennett individually, et al., an order was granted confirming a supplemental report of the referee, and directing the distribution of the proceeds of the sale.

Orange L. VanHorn for the plaintiff. Another action was Irene E. Lent versus Lawrence Budine, an order to show cause why the order heretofore entered herein granting a new trial on the grounds of newly discovered evidence should not be modified with respect to the affidavits which should be read and filed with the order heretofore granted. The motion was granted and ordered settled between the parties and it such an agreement be impossible, then by the court. Henry Hunter of Newburgh appeared for the plaintiff, while Peace and Pease of Wilton and A. L. O'Connor of Hobart were of counsel for the defendant.

There were two other actions of divorce. In that of Kasson C. Hodges versus Elizabeth F. Hodges proofs were taken and a decree of divorce on statutory ground was granted. Percy J. Thomas of New Berlin appeared for the plaintiff.

A decree for divorce on statutory grounds was also granted in the action of Josephine Pest versus Edwin G. Pest, of Morris after proofs had been taken. Alton L. Winn of Morris appeared for the plaintiff.

CLOSING THE OPEN SEASON

Adirondack Club Advise No More Deer Hunting for Five Years—Conditions Said to be Serious.

Eagle Bay, July 1.—At the last meeting of the Central Adirondack Hotel association the question of closing the open season on deer for five years was brought up and opinions were asked by the President from different members of the organization.

It seems to be the conensus of opinion that drastic action should be taken by different clubs, that might be interested, in an effect to bring the season to a close for at least five years. Hunters and hard winters have depleted the stock of deer that few years more of the present policy will bring the Adirondack deer hunting in practically nil; with the exception of the private parks and the more isolated places.

Hotel men who are interested in the advancement of the Adirondacks are working on this problem. Some of the old time pioneers of the surrounding territory are anxious for this measure to be brought before the legislature and have the season closed.

Combined with this a movement has been started by some property owners to have restricted sections in the Adirondacks and have other sections left open.

H. F. Sperry, who presented the proposition before the meeting, is going to bring the matter to the attention of all assemblymen and senators asking that they support the bill when introduced. The Hotel association is looking for the cooperation of the game clubs in this matter.

RADIO CHURCH SERVICES

Interesting Story of Two Elderly Women Unable to Attend Regular Services Who Attend via Radio.

Schenectady clergymen whose services have been broadcast now look upon the radio station as a powerful gospel missionary. Words spoken in a church in the presence of a small group of people are given wings and travel to thousands of homes reaching the aged and the infirm who, but for the radio, would not hear a church service. Village churches, locked because of a shortage of ministers or inability to provide for a pastor regularly, now open their doors and the congregations worship with the Schenectady church membership via radio.

After every service letters reach the pastor from all parts of the country, the clergymen was recently told of two elderly women, too feeble to go to church, who have been speaking to them in their best finery and sit at their radio set, hats and gloves on, and devoutly listen to the service. During the scripture reading they follow the pastor in their bibles and at the offertory they solemnly place a modest offering in a plate at their side. At the end of the service the money is sent to the pastor who has been speaking to them.

A lumberjack recently wrote one of the Schenectady ministers that he had heard a church service for the first time in eleven years, and that it had taken him back to his "Sunday school days." He was so impressed that he is getting a local speaker so that the gospel message may be appreciated by others in the camp.

Eighteenth Session in Catskill. Clarence Hibbard, a minister formerly well known in Oneonta by reason of many visits here, was a caller on friends in the city Saturday. Mr. Hibbard is starting on his 18th annual tour of the Catskill resorts. This year he will entertain by means of an improved harmonica, on which he is very adept.

What Became of the Peddler?

Even in remote regions, the once-familiar figure of the peddler is rarely seen. In the cities the brass-lunged huckster has practically disappeared.

Advertising has banished those outworn hangers-on of trade. Through advertisements, women learned discontent with the limited choice offered by the peddler's pack and the huckster's cart.

Advertising teaches us to be more exact in judging values; to require things to measure up to better standards; to make better use of every cent we spend.

Advertising has done away with haphazard choosing by showing how wide and precise a choice you really can have. Haphazard buying is going the same route. People who read advertisements know what is what—and they make sure they get it at the right price!

Advertisements give you living news of economics.

Read them regularly!

**THE GUIDE POST—
BY HENRY VANDYKE****THE SECRET PAVILION**

In the cover of thy presence shall show hide them from the plotings of man: thou shall keep them secretly in a pavilion from the strife of tongues.—Ps. 31:20.

It may be that you and I will never be called to pass through sufferings and trials like those of the author of this psalm.

It may be that our country will never forfeit its great privileges and happiness by the pathway of iniquity to ruinous downfall.

It may be that we shall never have to protest alone against the corruptions of an avaricious church.

But it can hardly be, if we are true men, that we shall not be forced at some time or other to take the unpopular side.

It can hardly be that we shall never feel the hostile pressure of the plots of men, and the winging arrows of the strife of tongues.

Then we shall need a refuge, and we shall find it only in the loyal adherence to our convictions, in the faithful performance of our duty, which shall bring us as near to God as we can feel his presence abiding, embracing, hiding us in a secret pavilion.

I lived for interrogation.

POWERFUL, RUGGED, DURABLE

Frontenac tires 600 miles starting from Utica, New York, Boston and Falls Creek destination.

Elmer Radley, 14 year old son of Mr. and Mrs. John Radley of 26 River street, was seriously injured yesterday evening when the saddle horse he was riding slipped at a walk on Prospect street, toppled over backward and fell upon the lad, who had ridden to the ground. The lad is at the Parshall hospital suffering from severe contusions and contusions of the groin. He was resting comfortably last evening, and unless unexpected internal injuries are discovered will recover.

The lad was riding the horse, rented from the Shugens stable, along Prospect street when an Otsego Lee Crown company's truck approached from the rear. The horses frightened the animal, which began to plunge and rear. The rider got his mount under control and was turning up a drive to let the truck pass when the animal, struck a glimpse of the truck, reared on his hind legs. The boy slid back out of the saddle onto the ground and the horse, toppling over backward, fell upon him.

The horse got to its feet quickly and started away on a gallop. With remarkable quickness, considering the nature of his injury, the boy rose and started after the steed but had gone but a few steps when he cried, "Take me somewhere quick." Jay H. Lawson and Irving Smith, who witnessed the accident, hastened to the boy and putting him in Mr. Smith's car, drove him, at his request, to the Parshall hospital, where his injury was dressed by Dr. M. Litcher.

HEALTH CAMP OPENS TODAY

Eight Children from All Over Otsego County, Picnic Excursion.

The Otsego County Children's Health camp between Laurens and Mt. Vision opens today with eight children from all over Otsego county. From two to four more children will be added during the week. The camp is for malnourished and underweight children — children who have gone chronic disease but who often have minor illnesses and frequent colds in winter. The camp is under the direction of the Otsego County Tuberculosis and Public Health association and is financed by Christmas Seal.

The daily routine has been carefully planned with properly regulated diet, mid-morning lunch, afternoon rest and supervised play. Mrs. Strong of Laurens, has been engaged as cook.

In addition to donations already mentioned in these columns, the town of Milford has sent in a generous supply of dishes, furniture, towels and bedding. Mrs. Mary Keayon Yates, of Morris, has contributed furniture. The Beulah club of Worcester has donated \$1.20 and one dozen spoons. The Coopersburg Red Cross, \$50; Morris Red Cross, \$12, and Mrs. Katherine Francke, Gilbertsville, \$10.

GROCERY STORE BURGLARIZED.

Young Lad Confesses to Stealing \$70 from Huisenga Store on Elm Street.

The arrest yesterday afternoon of a 14 year old boy cleared up the mystery surrounding the burglarizing Saturday night of the grocery store of F. W. Huisenga at 75 East street. It was reported yesterday morning that someone had entered his store the preceding night and stolen \$70 in cash and a carton of cigarettes. The police discovered that a certain lad had been seen running from the vicinity of the store late Saturday night. The boy was soon located and upon being questioned admitted his guilt.

The lad gained admittance to the store by raising an unlocked window. The lad knew where Mr. Huisenga kept his money and found it without difficulty. When apprehended he was found to have the money in his possession. The cigarettes he had hidden in some bushes near the store. The boy was paroled in the custody of his father for an appearance at the next term of children's court in this city.

On Historic Ka-tionga.

Mr. and Mrs. C. Ralph Kinne and family left yesterday for a camp they have established on the banks of the Cherry Valley creek, midway between Pleasant Brook and Middlefield. They were accompanied by fourteen Oneonta boys and girls who will remain a week or ten days as the guests of Mr. and Mrs. Kinne and enjoy real country camp life. The jolly party is made up as follows: Winifred Kinne, Emily Kinne, Lulu M. Hill, Evelyn Turner, Olga Trieb, Myrtle Langton, Edith Craft, Lillian Moffat, Helen Beers, Roland Hill, Lester Murdoch, Ralph Butts, Roger Kinne, Harold Blanchard and Irisie Beiderman.

BANKERS OF OTSEGO

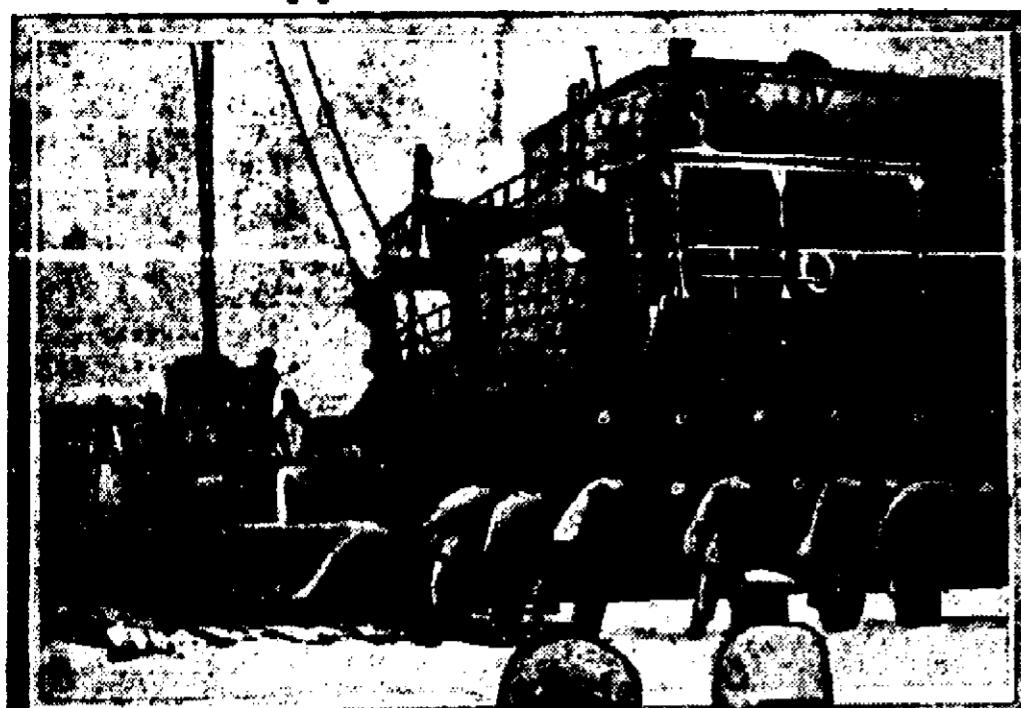

HOLD SWIM - ANNUAL MEETING SATURDAY AT COUNTRY CLUB

Place Address by Deputy Governor State of Federal Reserve Bank of Utica, New York, "Oldfield Property," 10th Street, Utica.

The semi-annual meeting of the Otsego County Bankers' Association, an organization embracing every bank in the territory, was held Saturday afternoon at the Oneonta Country club house. Practically all the banks were represented and there were about seventy bank officials and a few friends who sat down at 8:30 to a delicious luncheon which was in every way up to the high repute of Mrs. Kilkenney, under whose personal direction the repast was served.

The feature of the afternoon was the address by Deputy Governor Louis E. Boller, of the New York Federal Reserve bank. Judge U. G. Welch of Edmiston, president of the association, after brief introductory remarks, presented the speaker of the day, as one who was in direct personal charge of a financial institution by which 3,000 men are continuously employed.

More Than One Hundred Million Pounds of Food and Seed Grain a Month Has Been Shipped to Russia for Famine Aid

No single figure can give a better idea of the magnitude of the operation of the American Relief Administration than the tonnage of food supplies and seed grain that it has bought from the American producer and shipped in American bottoms since the beginning of its operations late in August, 1922. In less than 18 months that figure was very close to one million tons, or two billion pounds. The exact tonnage was \$12,121 up to March 26, 1923, which, reduced to pounds, would give 1,224,242,000, or an average of more than one hundred million pounds a month.

This represents the shipment of foodstuffs and seed only and does not include fifteen million pounds of medical and hospital supplies or nearly a million and a half dollars' worth of clothing which the American Relief Administration also shipped from America as a part of its Russian Relief program during the same period.

The food supplies and seed grains required 287 different ships and this does not take into account the numerous trans-shipments from Danzig and Hamburg to Russian ports by smaller vessels, nor numer-

ous shipments from the United States in small lots by liners. Sixty-nine different ships carried the medical supplies and the cost of transportation and handling of the medical supplies alone, which was covered by a single contribution, was \$267,400. No money went out of the country.

National Flag Conference Fixes Rules for Old Glory**Announces Official Decisions for Correct Usage in First Organized Campaign of the Kind**

The new flag code recently adopted by the National flag conference at Washington, D. C., is of more than ordinary interest at the present time, namely as the Fourth of July, the anniversary of national independence, is only two days away, and more doubtful than on any other day of the year, will the national colors be displayed. Members of all the leading patriotic organizations of the country had place in the conference and the code, as finally adopted, had approval of them all. Omitting some matters of detail relative to size, colors and proportions, the report follows:

Proper manner of display — There are certain fundamental rules of heraldry which, if understood generally, would indicate the proper method of displaying the flag. The matter becomes a very simple one if it is kept in mind that the national flag represents the living country and is itself considered as a living thing. The union of the flag is the honor point; the right arm is the sword arm and therefore the point of danger and hence the place of honor.

1. The flag should be displayed only from sunrise to sunset, or between such hours as may be designated by proper authority. It should be displayed on the national and state holidays and one historic and special occasion. The flag should always be hoisted briskly and lowered slowly

2. When carried to procession with another flag or flags, the flag of the United States should be either on the marching right i. e., the flag's own right, or where there is a line of other flags, the flag of the United States may be in front of the center of that line.

3. When displayed with another flag against a wall from crossed staffs, the flag of the United States should be on the right, the flag's own right, and its staff should be in front of the staff of the other flag.

4. When a number of flags are grouped and displayed from staffs, the flag of the United States should be in the center or at the highest point of the group.

5. When flags of states or cities or pennants of societies are flown on the same bunting with the flag of the United States, the national flag should always be at the peak. When flown from adjacent staffs the flag of the United States should be hoisted first. No flag or pennant should be placed above or to the right of the flag of the United States.

6. When flags of two or more nations are displayed they should be flown from separate staffs of the same height and the flags should be of approximately equal size. International usage forbids the display of the flag of one nation above that of another nation in time of peace.)

7. When the flag is displayed from a staff projecting horizontally or at an angle from the window sill, balcony or front of building, the union or flag should go clear to the head of the staff unless the flag is at half-staff.

8. When the flag of the United

States is displayed in a manner other than by being flown from a staff, it should be displayed flat, whether indoors or out. When displayed either horizontally or vertically against a wall, the union should be uppermost and to the flag's own right, i. e., to the observer's left. When displayed in a window it should be displayed the same way, that is, with the union or blue field to the left of the observer in the street. When festoons, rosettes, or drapings of blue, white and red are desired, bunting should be used, but never the flag.

9. When displayed over the middle of the street, as between buildings, the flag of the United States should be vertically with the union to the north in an east and west street or to the east in a north and south street.

10. When used on a speaker's platform, the flag should be displayed above and behind the speaker. It should never be used to cover the speaker's desk nor to drape over the front of the platform. If flown from a staff it should be on the speaker's right.

11. When used in swelling a statue or monument, the flag should not be allowed to fall to the ground but should be carried aloft to wave over, forming a distinctive feature during the remainder of the ceremony.

12. When flown at half-staff, the flag should be hoisted to the peak and then lowered to the half-staff position, but before lowering the flag for the day it is raised again to the peak. On Memorial day, May 30, the flag is displayed at half-staff from sunrise until noon and at full-staff from noon until sunset for the nation lives and the flag is the symbol of the living nation.

13. When used to cover a casket, the flag should be placed so that the union is at the head and over the left shoulder. The flag should not be lowered into the grave nor allowed to touch the ground. The casket should be carried foot first.

14. When the flag is displayed in church, it should be from a staff placed on the congregation's right as they face the clergyman. The service flag, the state flag or other flag should be at the left of the congregation. If in the chancel, the flag of the United States should be placed on the clergyman's right as he faces the congregation and other flags on his left.

15. When the flag is in such a condition that it is no longer a fitting emblem for display, it should not be cast aside or used in any way that might be viewed as disrespectful to the national colors, but should be destroyed as a whole, privately, preferably by burning or by some other method in harmony with the reverence and respect we owe to the emblem representing our country.

Cautions.

1. Do not permit disrespect to be shown to the flag of the United States.

2. Do not dip the flag of the United States to any person or anything. The regimental color, state flag, organization or institutional flag will render this honor.

3. Do not display the flag of the United States with the union down except as a signal of distress.

4. Do not place any other flag or pennant above or to the right of the flag of the United States.

5. Do not let the flag of the United States touch the ground, or trail in the water.

6. Do not place any object or emblem of any kind on or above the flag of the United States.

7. Do not use the flag as drapery in any form whatever. Use bunting of blue, white and red.

8. Do not fasten the flag in such manner as will permit it to be easily torn.

9. Do not draped the flag over the hood, top, sides or back of a vehicle, or of a railroad train or boat. When the flag is displayed on a motor car, the staff should be affixed firmly to the chassis or clamped to the radiator cap.

10. Do not display the flag on a float in a parade except from a staff.

11. Do not use the flag as a covering for a ceiling.

12. Do not use the flag as a portion of a costume or of an athletic uniform. Do not embroider it upon cushions or handkerchiefs or print it upon paper napkins or boxes.

13. Do not put lettering of any kind upon the flag.

14. Do not use the flag in any form of advertising or fasten it as advertising when a portion of the flag of the United States is flying.

15. Do not use, use or store the flag in such a manner as will permit it to be easily soiled or damaged.

Proper use of bunting. Bunting of the national colors should be used for covering a speaker's desk, platform,

federal statute which protects the flag throughout the country from desecration. This law provides that a trade mark cannot be registered which consists of or comprises, among other things, "the flag, coat of arms, or other insignia of the United States or any simulation thereof." (32 Stat. L. p. 725, Feb. 24, 1905.)

Congress has also enacted legislation providing certain penalties for the desecration, mutilation or improper use of the flag within the District of Columbia. (Feb. 8, 1917, 35 Stat. L. p. 366.)

Suggestions for state legislation regarding the flag—Based upon opinion of the supreme court of the United States rendered by Justice John Marshall Harlan, every state should enact adequate laws for the protection of the national flag. State flag laws should include the following:

1. That June 14, flag day, be set apart by proclamation of the governor or recommending that Flag day be observed by people generally by the display of the flag of the United States and in such other ways as will be in harmony with the general character of the day.

2. That the flag of the United States be displayed on the main administration building of every public institution.

3. That the flag of the United States with staff or flag pole be provided for every school house and that the flag be displayed during school days either from the flag staff or in inclement weather within the school building.

4. That the flag of the United States be displayed in every polling place.

5. That the use of the flag of the United States as a receptacle for receiving, holding, carrying or delivering anything be prohibited.

6. That the use of the flag for advertising in any manner be prohibited.

7. That fitting penalty (fine and imprisonment) be provided for public institutions, cities or desecration of the flag.

CHILDREN'S HOME WEEK.

House Warming Well Attended by Enthusiasts in Work for Children.

Cooperstown, July 1.—(Special)—

About 200 persons visited the Children's home of Otsego county on the Glimmerglass farms yesterday afternoon to attend a house warming. They all seemed to be very much interested in the work. Many mackinaws were donated, including one from Worcester. Someone also gave an excellent large rug to the home.

Judge Hill of Chenango county was

present and took a great interest in what Otsego county was doing in this work. Among others were Judge Luce of New York and Judge Welch of Otsego county. Miss Wardwell, an enthusiast of the Society for the Prevention of Cruelty to Children's work of Springfield Center, also was present.

Wills His Houses to Life-Long Tenants

Tenants who for many years occupied houses belonging to James E. Humphrey, who died in Nashua, N. H., a few days ago, are the principal beneficiaries under the will, each getting the house he lived in. But a small part of the \$50,000 estate goes to distant relatives, virtually all of the real estate being left to tenants.

Drove Cars While Intoxicated.

Dennis Heath of Oneonta, arrested Friday for driving an automobile while intoxicated, pleaded guilty when arraigned in police court on Saturday morning and was fined \$50 by Judge Huntington, who also suspended his license to operate a car for 60 days. The man was arrested on Chestnut street by Officer Otto of the local force and Sergeant Brown of the D. & H. police.

Jesse Perry of West Oneonta, arrested by Sergeant Brown at West Oneonta for operating a car while intoxicated, was taken before Justice of the Peace Smith, who held him for the grand jury, he having no jurisdiction in the case.

WOMAN SO ILL COULD NOT STAND

See Lydia E. Pritchard's Vegetable Compound made her well and strong

Glen Falls, N. Y.—"For over two months I was so sick I was not able to stand on my feet, and my husband did my housework. The doctor said an operation might be necessary. I read testimony in medical letters about Lydia E. Pritchard's Vegetable Compound and began to take it. Before I had finished taking the last bottle I knew what good it was doing me. I am now well and strong. I am working for a family of four, washing and serving, which is something, as I had not done for many years. I am feeling much better now. I truly thank you for your product. I hope you will continue to make it for many years to come. My name is Lydia E. Pritchard, Glen Falls, N. Y.
